# For ***balanced banking regulation*** in the interest of Switzerland as a business location

21.09.2026

---

## At a glance

- In a joint letter to the Council of States, business associations are calling for balanced banking regulation.
- Geopolitical uncertainties, the strong Swiss franc, protectionist tendencies, rising energy prices, and increasing regulatory burdens are weighing on Switzerland as a business location.
- This makes it all the more important to strike the right balance in areas where Switzerland can independently shape its framework conditions—and thus its competitiveness as a business location—and this also applies to banking regulation.
